Berg Scherer understands education

As an educator, Rachel Berg Scherer clearly understands current education concerns in general, but specifically the needs of ECC Schools. With her own children in District 112 she is a parent actively involved in supporting the schools. As a student and graduate of our District, she was a self starter. As a junior in high school while enrolled in U.S. Government Class, she worked in the Chaska office of our then U.S. Representative, David Minge.

Subsequently she began college a year early.

As an adult she taught in Baltimore schools and worked on Capitol Hill. Now, having moved with her husband and children back to Chaska, she heads her own communication business: Midwest Writing and Editing. She has brought back a broadened perspective and background representing years of work as a professional communicator.

In addition, her positive, outgoing and friendly personality give her a definite advantage in working with people.
