

Berg Scherer is qualified to serve

I have been friends with Rachel Berg Scherer for 35 years, since we were both precocious second graders at Chanhassen Elementary.

Rachel's talents are many. Did you know that Rachel plays percussion? She is an amazing musician, playing all through school, including college, and continues to play even now in the Minnesota Valley Community Band.

Rachel brings the same passion and intensity she has for percussion to educating, writing, and creating. After teaching high school English for many years, Rachel now owns her own writing and editing business, where she helps craft educational content along with many other services.

Rachel loves this community

and has invested countless time and energy into many local organizations, including volunteering with her children's school's PTO. The thing you need to know about Rachel is that if she is going to do something, she is going to do it well and see it all the way through. When considering who to vote for in the upcoming School Board election, it would behoove you to take a long look at Rachel and cast your vote in her direction.

Rachel is uniquely qualified to serve on the board and comes prepared for any challenge. She has trained her whole life for this position and will be ready on day one. As a drummer, she knows how to keep the beat and hold the band together. She is steady. I trust her and so can you.
